

Information Security Policy

Vi-M Professional Solutions Limited (Vi-M) is committed to protecting the confidentiality, integrity, and availability of information in the delivery of its tax, audit, advisory, and technology-enabled business solutions. Information security is fundamental to our operations, digital platforms, and the trust placed in us by our clients and stakeholders.

Vi-M establishes information security objectives that support secure financial and advisory service delivery, protection of client data, regulatory compliance, and risk-based decision-making. These objectives guide the implementation and effectiveness of our Information Security Management System (ISMS), particularly across our use of cloud accounting systems, enterprise platforms, and digital solutions.

We are committed to complying with all applicable information security requirements, including ISO/IEC 27001:2022, relevant data protection regulations, and contractual obligations, while proactively identifying and managing information security risks.

Vi-M is dedicated to the continual improvement of its ISMS. This policy is documented, communicated to all employees and relevant stakeholders, and made available to interested parties as appropriate.
